

ADVANCED TECHNOLOGY SERIES

WITH **MaxPro** FILMS IT'S ALWAYS A BEAUTIFUL VIEW! WHY BLOCK YOUR VIEW DAYTIME OR NIGHT?

Many homeowners close shutters to stop the heat and glare during the day. This decision diminished the views they expected to have and, in order to benefit from the shutter, they would trade light for darkness.

You deserve better and you can have it with Pinnacle Plus films. This series, designed with a large number of choices will provide you everything you desire. It provides energy control, heat reduction, removing hot spots or Ultra Violet reduction to reduce fading of carpets, drapes and furniture. All this while enhancing your view, daytime or night!

Ask your professional installer how to choose the right film for your home and enhance its beauty with films from the *MaXPro Pinnacle Plus Series*.

Have them show you samples, colors and even neutrals shades that will make your home more comfortable and energy efficient !

Ask about the *MaXPro* Warranty for peace of mind and see how it reduces glare and let's you see the light of day.
