

SAFETY MAX

When you need Extra Protection

SAFETY MAX ANTI-FRAGMENTATION SERIES

SAFETY MAX SOLAR (AFF SERIES)

24 HOUR A DAY PROTECTION
ANTI-FRAGMENTATION FILMS

Security & Safety, represents peace of mind. It is one of the most important aspects of our lives for co-workers, friends, our family and ourselves. *MaXPro Safety Max* and *Safety Max Solar* can provide peace of mind to the work place and your home

MaXPro Anti-Fragmentation Films are designed to interfere with a broken window whether it is from an accident, mother nature or an intruder. Designed to hold the glass together, it makes it more difficult to have the glass shatter. Intruders may become frustrated and what might have seemed a simple method to enter will be time consuming and may become impossible for some as the film holds the glass together.

Governments around the world have been the major purchasers of these products. Anti-Fragmentation films are found worldwide for protection in Airports, Military Bases and Retailers. Homes and for anyone seeking a better deterrent to broken and dangerous glass shards. Protect your glass and environment 24 hours a day by preventing dangerous flying glass when broken. This choice has saved lives and protected property around the world. Designs providing enhanced protection from Hurricanes, Tornadoes, Hail or crime are now available with added Energy Saving Technology!

MaXPro Safety Max offers these remarkable products in a selection of gauges to meet your needs. Available in Clear and now available with heat rejection in a large choice of Colors. The result is you will benefit in Energy Cost as well as Peace of Mind. Ask you professional installer to explain your options for added Safety, Security and Energy Control with ***MaXPro Safety Max*** or ***Safety Max Solar*** Anti-Fragmentation Films.
