### SPECIALTY PRODUCTS

Recently a Marriott Suites program to update and improve their suits chose *MaXPro's* "White Frost" film to apply to the French Doors inside the guest suites. The results provide beauty and privacy. Marriott considered the results so outstanding in appearance that they have applied this product to several other Marriott properties across the country. White Frost is now available in a choice of thickness.

Other Products like "True Black Out" have been used from boardrooms to bars. Whenever true privacy is required, the Zero Light films provide a stunning solution. Black out is also available in several thickness including a 4 Mil, a security film.

Anti-Graffiti products have been used on buses, office buildings, homes and elevators in casinos to stop serious damage to their property. The Anti Graffiti films are designed for removal and replacement after Tagging, leaving the original quality and beauty of the surface intact. This product designated the "TAG" series can help protect a major investment in property by keeping it like new.

Specialized project from clear bathroom windows to boardrooms, *MaXPro* has the solution.

● True Black Out

● White Frost

● TAG Anti Graffiti
